Register in UMAS DT – Admin User

To login and purchase products of the Service Information Mercedes-Benz Trucks Portal, users must first set-up an account or request access rights to the Daimler Truck-specific Service Information Mercedes-Benz Trucks Portal via UMAS (<https://xentry.daimlertruck.com/umas/registration/#/new-org>).

Add admin user
for company
account (only
necessary for
newly registered
companies)

The screenshot shows the 'Add user' page in the Daimler Truck UMAS system. The page has a header with the 'DAIMLER TRUCK' logo and links for 'Login' and 'New registration'. A progress bar at the top indicates four steps: 'Country', 'Company', 'Account' (the current step, marked with a '3'), and 'Summary'. The main heading is 'Add user', with a subtext: 'Please create a new user for this company account. You will be able to create further users once you have saved this one'. The form includes fields for 'Salutation' (a dropdown), 'First name *', 'Last name *', 'Email *', 'Re-Type Email *', and 'Telephone number'. A note states: 'This Email is required for verification to complete the user's creation.' Below the form is a checkbox with a mandatory asterisk and a detailed confirmation text about technical expertise. At the bottom, there are 'Back' and '> Continue' buttons. The footer contains copyright information '© Copyright Daimler Truck 2024' and links for 'Provider', 'Cookies', 'Data privacy statement', and 'Legal notice'.

Please create a new user for this company account. You will be able to create further users once you have saved this one

Salutation * First name * Last name *

Email * Re-Type Email * Telephone number

This Email is required for verification to complete the user's creation.

☐ *I confirm that all work on motor vehicles is carried out exclusively by technically qualified staff. The technical information is aimed at persons trained to the level of a qualified technician in the field of automotive repairs with good product knowledge and regular further training. This level of expertise is absolutely essential for carrying out work on the vehicles. If this expertise and this product knowledge is not in place, the performance of this work should be avoided and entrusted to a Daimler Truck workshop.

Your new user account

Dear User,
your user account has been created in the central user management of Daimler Truck AG.
This profile enables central access to the Daimler Truck systems.

User ID:
[Redacted]

Your user account has been set up with the following information:

First Name:
[Redacted]

Last Name:
[Redacted]

E-Mail address:
[Redacted]

Organization:
[Redacted]

To enable future login to Daimler Truck applications, you must first verify this email address via the link provided in the order confirmation from User Management After Sales (UMAS).
Upon your first login, you will be prompted to set a password and configure multi-factor authentication (MFA).

Important information:
While your User ID will be available shortly, it may take some time for it to be fully provisioned in the system. Consequently, there may be a brief delay after receiving your ID before you can reset your password and log in successfully.

Best regards.
