XENTRY Operation Time

Innovative. Intuitive. Inspiring.

Mercedes-Benz

Time for something new.

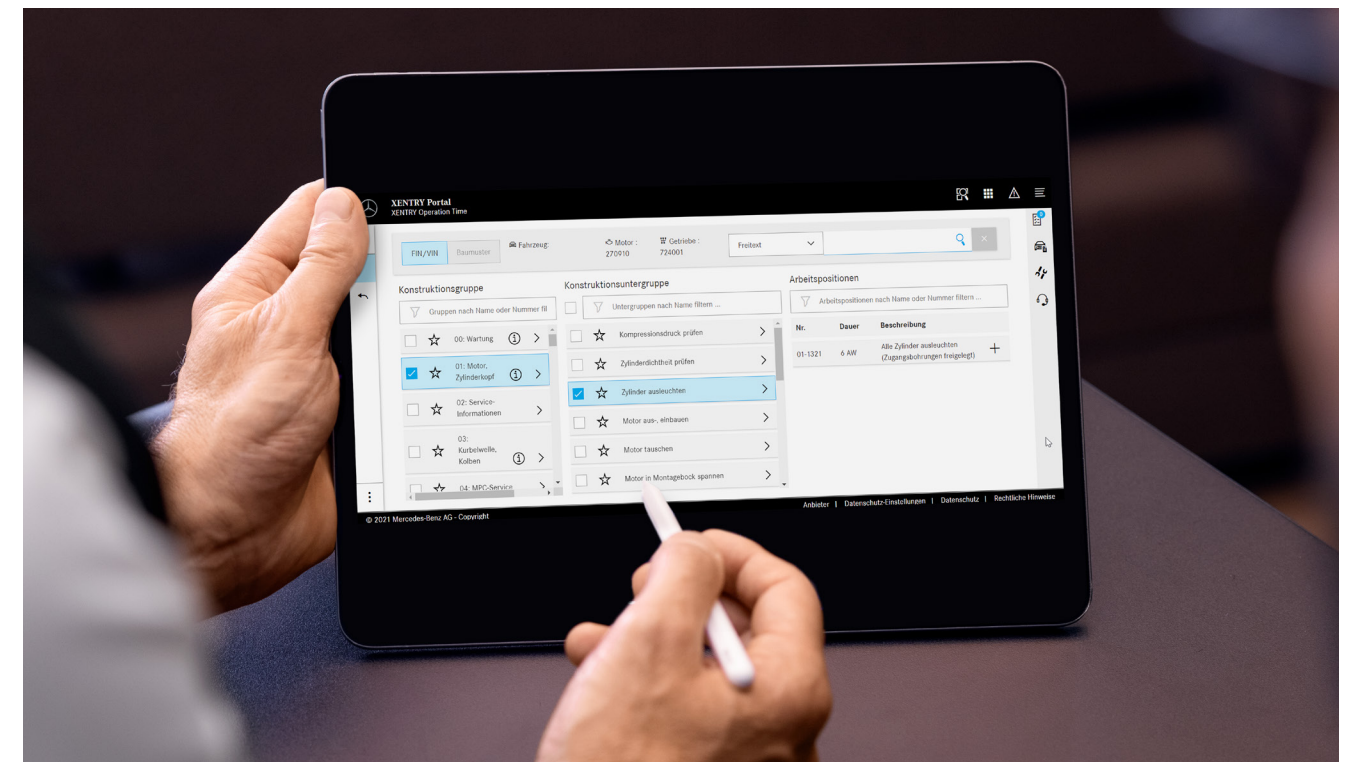

More intuitive operation, quicker search, find just what you need – and have as a result more time for the basics. We were happy to implement the suggestions that came from the markets.

Progress means finding new perspectives. We asked ourselves how we could noticeably improve the work procedures in Retail. The answer to this are our innovative tools that will revolutionize your day-to-day workshop processes.

Discover how you can get the most out of your applications.

We wish you every success in your work!

With XENTRY Operation Time (the successor to ASRA), you will increase the speed of your search – and the hit rate. Thanks to the intuitive operation, it has never been so easy to save on time and increase sales.

It is intuitive to use and quickly understood, and can also be used on mobile devices: Similar to all new XENTRY applications, XENTRY Operation Time gives you more freedom!

More information in less time.

You can now search in a minimum of time for all necessary information on the required operation times and operation items. As XENTRY Operation Time has now been seamlessly integrated into XENTRY TIS.

You thus no longer have to log out of the XENTRY Portal. The user interface is now more intuitive and easy to understand – which is ideal for both existing and new colleagues.

What's new in XENTRY Operation Time?

- FIN/VIN-specific filtering and searching for operation items
- Mobile device application: Easy search process on your tablet
- Integration into XENTRY Portal for the optimal linking up of the applications and information
- Improved search functions (search for operation items by means of the fault location, WIS document number and part number)

Who benefits from XENTRY Operation Time?

Simply everyone: Service advisors, workshop forepersons, technicians, W&G managers – and our customers!

What are the benefits for you?

- Simple and intuitive operation
- Time saving when searching
- High accuracy, low error rate
- Increase in sales due to optimized processes and preparation

What are the benefits for our customers?

- Quicker information and shorter waiting times

XENTRY Operation Time is currently available to all users as an integrated application, incl. in XENTRY TIS and XENTRY Workshop. From 2022, users can directly access the application XENTRY Operation Time via a separate icon in the XENTRY Portal.

Note:

ASRA will remain available to all XENTRY Operation Time users until the official discontinuation.

What's new otherwise?

XENTRY Operation Time is not the only innovation in the XENTRY Portal – it is joining a whole network of additional applications that together represent a milestone in Retail: XENTRY TIS, XENTRY WIS and the Dynamic Wiring Diagram (DWD) module.

There is even more to experience!

You want a more intensive experience of the innovation? Then visit our campaign page with additional information on XENTRY Operation Time in the XENTRY Portal at: **<https://xentry.daimler.com/>**
